## Summary

I am, a passionate Computer Science student at IIT Patna, driven by curiosity.

I specialize in web development, system optimization, and content creation, focusing on building practical tools and digital solutions that enhance productivity and creativity.

As an indie creator, I share my journey through coding projects, insightful writings, and engaging videos. I thrive on exploring technology, philosophy, and intentional living, constantly learning and contributing to open-source communities.

## Education

2024 - 2028	<div><div></div><div>Indian Institute of Technology, Patna</div><div>Graduation • BS • Computer Science</div><div>CGPA - 9.26</div></div>
2023 - 2024	<div><div></div><div>Vinayak International School, Sikar, Raj.</div><div>12th • XII</div></div>
2021 - 2022	<div><div></div><div>R.E.D. School, Charkhi Dadri, Haryana</div><div>10th • X</div></div>

## Skills

- Python
  - Content Creation
  - Writing Skills
  - Version Control
  - Full-Stack Web Development
- UI/UX & Design

## Projects

### ARGON - Your Shield Against Chaos

Dec 2024 – Jul 2025  
[Project Link](#)

Argon is a Chrome extension designed to help users manage digital distractions with features like adaptive website blocking, wellness reminders, and a doom scroll detector. Built with Manifest V3 and JavaScript, it emphasizes privacy, simplicity, and mindfulness by providing tools such as Pomodoro timers, posture alerts, hydration reminders, and local processing to foster healthier digital habits and focus.

### ASHES – A Minimalist New Tab Extension for Mortality Reflection

May 2025 – Jun 2025  
[Project Link](#)

Ashes is a minimalist Chrome extension that replaces the new tab with a live countdown of your remaining lifetime, based on your age and country’s life expectancy. It serves as a private, philosophical reminder to pause and be intentional, helping you focus on what truly matters without distractions or data tracking. Inspired by memento mori, it encourages mindful living through simple web technologies.

## Achievements

### Open Source Contributions

#### Weekly Commits

September 2025 • Core Contributor & UI/UX Designer

- Built a comprehensive theme system with 14 color themes and flexible coloring modes for enhanced commit visualization.
- Redesigned project logo and visual identity - created new branding that captures the essence of weekly coding activity.

[Know More-](#)

#### Magic Portfolio

September 2025 • Feature Developer

- Built a configurable social sharing system for blog posts across 9 platforms (Twitter, LinkedIn, Reddit, etc.).
- Enhanced content sharing capabilities and improved user engagement features for the portfolio framework.
